SKILLS

UI/UX Design
Interaction Design
User-Centred Design
Requirements Gathering
Stakeholder Collaboration
Wireframing & Prototyping

TECHNICAL SKILLS

Frontend Development
React, TypeScript, JavaScript,
HTML, CSS, SVG, Tailwind CSS
Application Development
Electron, Android Studio
Version Control & DevOps
Git, GitHub, GitHub Actions
Cloud & Deployment
Azure, Vercel

LANGUAGES

- English (Fluent)
- Malay (Fluent)

REFERENCE

Remy Choon
Company: [SBS Transit Ltd](#)
Role: [Senior Manager](#)
Email: jwchoon@gmail.com

PROFILE

Computer Science graduate with hands-on experience in UI/UX, frontend development, and rail digitalisation. Skilled in translating operational requirements into intuitive digital solutions, with strengths in user-centred design, rapid prototyping, and practical problem-solving.

WORK EXPERIENCE

- SBS Transit Ltd** MAY 2025 - APR 2026
Software / Product Developer Intern
- Worked with stakeholders to understand operational needs and translate requirements into practical digital solutions.
 - Contributed to development, UI design, prototyping, testing, troubleshooting, and iterative improvements across digitalisation initiatives.
 - Supported technology events and roadshows by presenting and demonstrating innovation initiatives such as IMOS to internal and external audiences.
- Terra Systems Pte Ltd** SEP 2019 - FEB 2020
Network Engineering Intern
- Assisted with network setup, configuration, troubleshooting, and testing in a real-world technical environment.
 - Supported technical projects and documentation while gaining hands-on experience with networking tools, hardware, and IT workflows.

PROJECTS

- MRT Infographic Generator**
Developer
- Built a desktop tool for producing commuter-facing NEL and DTL disruption and delay infographics using React, TypeScript, HTML, CSS, and SVG.
 - Implemented dynamic station visualisations, service legends, alternative service routes, disruption/delay states, and PNG export.
 - Translated rail operational requirements into clear interface flows and infographic layouts for disruption, shuttle train, and bus scenarios.
- Photo Culling Application**
Developer
- Developed a desktop application using Electron and React to assist photographers in reviewing and filtering large photo collections.
 - Implemented image-quality analysis using Laplacian-based blur detection and face detection to identify potentially unusable images.
 - Designed an efficient photo-review workflow with image previews and automated quality scoring to reduce manual culling effort.

EDUCATION

- Bachelor of Science in Computer Science in
Interactive Media and Game Development** 2022-2026
Singapore Institute of Technology (SIT) and Digipen Institute of Technology
- Diploma in Computer Engineering** 2017-2020
School of Engineering | Singapore Polytechnic
