Abu Hasif Bin Abu Bakar

I'm Hasif, an Interactive Media and Game Development undergraduate at SIT. I build React interfaces, UI systems, and practical tools, with experience in custom C++ game systems and audio programming.

EDUCATION

The Bachelor of Science in Computer Science in Interactive Media and Game Development

Singapore Institute of Technology

08/2022 - Present

Diploma in Computer Engineering

Singapore Polytechnic

04/2017 - 05/2020

Courses

- Executive Committee Member of Singapore Polytechnic Students' Union, 2018 to 2019.
- Executive Committee Member of Singapore Polytechnic Sports Club, 2019 to 2020.

WORK EXPERIENCE

Software / Product Developer Intern

SBS Transit Ltd

05/2025 - 04/2026

Singapore

Achievements/Tasks

- Strengthened technical problem-solving, adaptability, and professional communication skills in a real-world work environment.
- Built responsive infographic screens for NEL and DTL service disruption and delay scenarios using React, TypeScript, HTML, CSS, and SVG.
- Improved UI layout, station visualization, legend display, and usability based on project requirements and feedback.
- Gained exposure to prototyping, 3D printing, and maintenance-related tasks in a real-world transport operations environment.

Network Engineer Intern

Terra Systems Pte Ltd

09/2019 - 02/2020

Singapore

Achievements/Tasks

- Gained hands-on experience in various software programs, increasing proficiency and expanding the technical skill set.
- Provided exceptional customer service by promptly addressing inquiries, ensuring a high level of satisfaction among clientele.
- Gained valuable experience working within a specific industry, applying learned concepts directly to relevant work situations.

PERSONAL PROJECTS

Cloud-Native Developer Portfolio

- Built a responsive multi-page portfolio with reusable project data and interactive project previews.
- Added photography, local media previews, project filtering, and accessible page navigation.
- Planned serverless contact, visitor tracking, CI/CD, and infrastructure automation as future cloud additions.

MRT Infographic Generator

- Built dynamic NEL and DTL infographic views.
- Implemented station range selection, service legends, SVG composition, and image export handling.
- Improved the workflow for producing consistent commuter-facing visuals quickly.
